

Mounting Instructions:

- Remove the two DIN 912 screws on the top side of the assembly, thus releasing the navigation light from its mounting bracket.
- Drill the holes for the machine screws and the cable as shown on the measurements. Thread the screw mounting holes if applicable to the specific situation.
- Mount the mounting bracket onto the super structure using two 6mm countersunk machine screws. Make sure that the surface is flat and vertical.
- Resassemble the Navigation light

DIN 912 assembly screws
Included

M6 counter sunk,
mounting screws not included.

180 deg. White

50MM AT A3

200-024 180 degree White, 2 Nautical Mile
